

Measuring Appellate Reason-Giving in Saudi Commercial Courts

Abdullah Almohammed¹

Independent Researcher, Kingdom of Saudi Arabia

`abdullah.m.almohammed@gmail.com`

ORCID: 0009-0001-0832-0995

Competing interests. None. This work received no funding, and the author holds no position in, and no relationship with, the Ministry of Justice or any court whose judgments it measures.

Word count. 4,429 words including footnotes.

¹Abdullah Almohammed is an independent researcher in Saudi Arabia working on machine-readable corpora of Saudi legislation and adjudication. He built the corpus this article measures and the citator that joins its two halves at the level of the article. His work is published openly, with the code that produces every reported figure.
